- BURKINA FASO

[2iE: International Institute for Water and Environmental Engineering](#)

2iE trains entrepreneurial engineers specialised in the areas of Water and Sanitation, Energy and Electricity, the Environment and Sustainable development, Civil Engineering and Mining, and Management and Entrepreneurship.

Two of the UPVD's professors have served as associate professors at the 2iE since 2009, the West Africa Federal Institute based in Burkina Faso which trains engineers in civil engineering, water treatment, biofuels and solar power. These [PROMES](#) professors also work closely alongside corresponding research laboratories – the [LESEE](#) in particular. The various areas in which joint initiatives are carried out include training (classes at the site), research (co-supervision of theses, joint projects, on-site stays), assessing training programmes and research units and

student and staff exchanges.
